TranzPort Binding

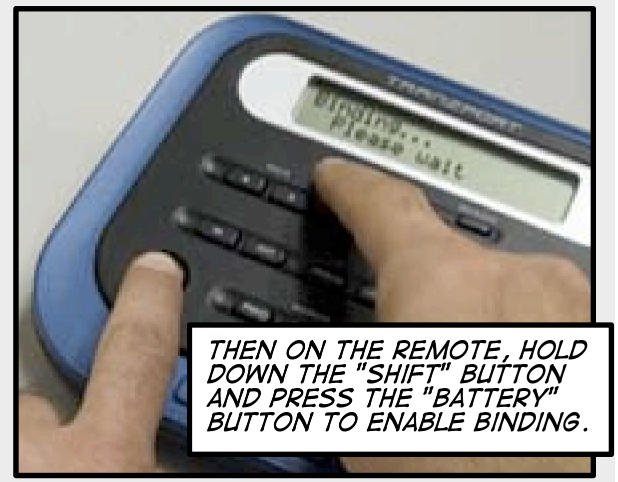

YOU'VE INSTALLED THE DRIVERS, PLUGGED-IN THE USB INTERFACE, PUT BATTERIES IN THE REMOTE. BUT THEY JUST DON'T TALK TO EACH OTHER. IF THE TRANZPORT "LINK" LIGHTS DON'T ILLUMINATE FOR YOU, THEN YOU MAY NEED TO FOLLOW THIS BINDING PROCEDURE TO GET THEM TALKING AGAIN.

(NOTE: YOU NEED TO KEEP THE TWO UNITS A COUPLE FEET APART, OR THIS PROCEDURE MAY NOT WORK.)

AFTER A COUPLE OF SECONDS, THE LINK LIGHTS ON BOTH UNITS SHOULD COME ON SOLID.

NOW THEY ARE "BOUND" AND READY TO BE USED.

PART 27 IN THE TRANZPORT INTER-UNIT RELATIONSHIP THERAPY AND TROUBLESHOOTING SERIES. CASSETTE TAPES WITH SUPPORT-ORIENTED SELF-HELP GUIDED MEDITATIONS ALSO AVAILABLE.

***IF THE USB INTERFACE'S LIGHT DOES NOT FLASH, REFER TO THE TRANZPORT USER'S MANUAL TO LEARN HOW TO RELOAD THE DRIVERS.

STILL GOT A PROBLEM? TRY ASKING FOR HELP ON THE TRANZPORT USER FORUM: WWW.FRONTIERDESIGN.COM/FORUM
